RECOGNIZED IN RICHMOND
Inmediately after the estape, the men parted, and as Creech was known to have many friends in the East, the Pinkerton agencies were notified to keep a lookout for him. Fate, in the way of Captain H. L. Brawner, former head of the night watch in the Kentucky penal institution, furnished the clue which led up to the arrest. Captain Brawner, who is now connected with a theatrical enterprise, was in Richmond on business on Sunday. Walking down Broad Street he almost bumped into Creech, for whom he knew a country-wide search was being made. Dissembling his knowledge that Creech had escaped, Captain Brawner led him to believe that he thought he had been pardened. While unable to pump the escaped convict, the former guard learned enterprise, was in Richmond on business on Sunday morning, and by the time the convention opens on Tuesday it is expected that more delegates will be registered than were at the connected with a theatrical enterprise, was in Richmond on business on Sunday morning, and by the time the convention opens on Tuesday it is expected that more delegates will be registered than were at the connected with music furnished by the crack band of Kallipolis Grotto, No. 16, of Washington, and the burning of red five, the minute men of Kallipolis Grotto, will be impersonated by three members of the visiting grotto.

thought he had been pardened. While unable to pump the escaped convict, the former guard learned enough to think that he was most likely working here, although Creech informed him that he was leaving for Roanoke on the next train.

Captain McMahon, of the local detective force, was notified, and knowing that the Pinacrions were on the case, he gave them the facts, and the rest was merely a matter of elimination. The search finally narrowed down to the Leigh Street house, and a man answering the discription of Creech was seen to enter shortly after for the leaves of the visiting grotto. The ceremony will be beautiful and impressive, and other visiting grottoe, will join Kallipolis in honoring Washington.

The Minute Men are Colonel M. A. Winter, Major Paul, Captains Adolph Gude, W. H. Wunder, F. H. Krameer, Victor J. Evans, Peter R. Patterner, D. Thayer, Fred Albrecht and John J. Cistinett, and they form the same organization which visited Germany last summer and was received by Emperor William.

At Police Headquarters, Creech for a few minutes refused to talk until he saw that the identification, made by numerous marks and scars, was complete and then he quietly said;

GAY OUTING PLANNED TO VARINA SATURDAY

Arrangements Complete for Annual Event of Business Men's Club Members and Friends.

The annual outing of the Business Men's Club will be held on Saturday, and, in the parlance of the entertain-ment committee, it will be "some out-ing." Every member is expected to attend, and may bring a friend. To those who do not go there will come an everlasting regret, for J. T. Palma-tory, chairman of the entertainment committee, has something up his sleeve, something worth a day's jour-ncy to see.

The outing will be to Varina, one of the quiet, sequestered spots in old lienrico, where the Indians used to hold their peace meetings. The boat will leave the Old Dominion wharf at 12 o'clock noon, and, returning, will reach Richmond at 7 o'clock. No expense will be spared to make of the outing the greatest in the history of the club. There will be something doing every moment, and the biggest stunt is reserved for the last.

On shore there will be a box lunch. The outing will be to Varina, one

High proportion of manufactured parts means car value, long life androad-ability. Studebaker SIX incorporates

a greater proportion of manufactured parts than any other car. Its steels are more rigidly specified; each shipment analyzed and tested before acceptance.

Its vital parts are heat treated more thoroughly—two to four times—and with greater scientific accuracy.

Methods of manufacture are more intensive; machinery equipment more complete and costly, yet far more economical because of big production.

Laboratory and engineering work goes deeper, is more thorough, and actually in charge of manufacturing.

Friction and vibration mini-mized, the life of the car lengthened by perfect align-ment of co-related parts, perfect lubrication and per-fect balance.

Hence the Studebaker SIX is the greatest value, has the longest life, the most per-fect road ability.

No higher price can buy as much, let alone more.

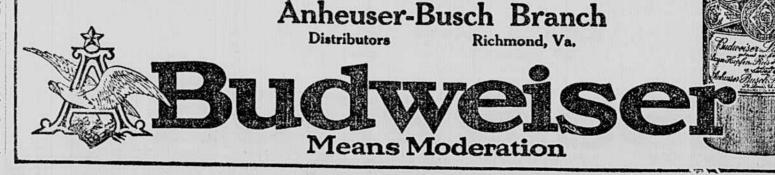

Send for the Studebaker Proof Book, describing Studebaker manufacturing methods.
